KNEE ARTHROPLASTY COURSE

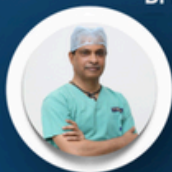

Total knee arthroplasty is probably the most commonly performed elective orthopaedic surgery in the Indian subcontinent because of the preponderance of knee osteoarthritis in this area. This Course will be extremely useful for both the beginner and the experienced surgeon, as the technique of knee replacement is described in detail. The book includes a complete chapter on knee preservation and methods to avoid knee replacements, with a detailed description of PFO, DSCB, Mukharjee regimen, and other protocols for knee preservation that have been recently rediscovered and made popular.

FACULTY :

Dr L. Prakash

Dr Vijay Sharma

Dr Simon Thomas

Dr Mithin Aachi

Dr Mohammad Younus

IAS

Indian Academy of Orthopaedic Surgeons
